## Bonus Scanning Software Included:

### ScanExpress Plus

With this comprehensive software package, you can scan your photos and documents to JPEG, BMP, TIF with one touch scanning. Further more, you can convert your documents into searchable PDF, Word, Excel, HTML, and Text formats, and recognize the scanned text in multi-languages with OCR software. Scan and Attach feature allows you to scan a photo or document and send it as an email attachment.

### Cardiris 3.5 (for PC only)

Scan and recognize all your business cards into Outlook contacts with Cardiris™. Export all the data, including card images to E-mail, FrontRange GoldMine, HTML(\*.html), IBM Lotus Notes, Innomatix InfoContacts II, Outlook, Outlook Express, Palm Desktop, Text (\*.csv), vCard(\*.vcf), ACT! and XML(\*.xml).

## Scan Photos

High quality scan up to 600 dpi for photos between 1.5" x 2" to 8.5" x 14".

## Scan Documents

Scan and convert hard copies of documents into searchable PDF, Word, Excel, HTML, and Text formats with supplied software.

## Scan Business Cards

Features an easy-to-use software that scans business cards and provides you with both the card's image, and the text information arranged in appropriate text fields. The text and images can be saved or exported to other applications, email, and the web.
